B Tech CSE (Data Science) student with a strong interest in Python programming and software development. I have a basic understanding of machine learning and am familiar with tools such as Python, PostgreSQL, Java, Spring Boot and Flask. I am eager to gain practical experience through real-world projects and enhance my technical skills.

B.Tech CSE(DS), Ballari Institute of Technology and Management CGPA: 9.46	2023 – Present Ballari, Karnataka
PUC, Vasishtha PU College Marks: 92.3%	2021 – 2023 Ballari, Karnataka
Class X (CBSE), Kendriya Vidyalaya Marks: 92.6%	2011 – 2021 India

Python, Java, C++ (Basics), PostgreSQL, MongoDB (Basics), Machine Learning (Beginner), Flask (Beginner), Spring Boot (Beginner), NumPy (Basics), Problem Solving, Debugging, Team Collaboration, Communication

English — Fluent **Kannada** — Native/Bilingual

Hindi — Fluent

Internship on Python Programming EZTS, September 2024	Internship on Python Programming EZTS, September 2025
Workshop on MongoDB BITM, November 2025	Workshop on Project Development Methodology BITM, October 2025
Workshop on AWS Amazon Web Services Training and Certification, February 2025	

Projects

AI-Powered Crop Yield Prediction and Optimization2025

We developed a dual-AI platform powered by Random Forest algorithms: a Random Forest regression model predicts Karnataka crop yield (93.8% R²) using engineered soil and weather features, while a Random Forest classifier recommends optimal crops using live weather APIs for real-time, hardware-free farmer decision-making.

TokenScope2026

Developed TokenScope, a web app for analyzing and optimizing LLM prompts using TF-IDF and token tracking. Implemented real-time heatmaps and cost reduction features to improve prompt efficiency.

Interests

Software Development | Artificial Intelligence | Problem Solving | Gaming | Travel
